Where did you hear about this convention?:

Damit wir dich bereits im Vorfeld gut in eine entsprechende Gruppe einordnen können,
kreuze bitte dein Level im Vertical Dance aus den unten stehenden Beschreibungen an/
Please tick as appropriate your level of vertical dance from the descriptions below:
(Vertical Dance Level adopted by: Vertical Dance Centre Il Posto Italy European Aerial Dance Festival, Brighton UK Irish Aerial Dance
Creation Centre Limerick Ireland Irish Aerial Dance Festival Donegal Ireland)

Advanced: you are a professional vertical dancer with significant track record in
working with and/or performing vertical dance over a number of years. You are an artist
who has creative practical experience of both the movement aspects, including an
understanding of and ability to regulate pendulum and the technical - rigging and
safety systems - of the discipline. You may also have had experience of teaching vertical
dance. Provide a biog/cv that lists your relevant experience of professional
engagements, who you've trained with previously and also the length of those trainings.

Skilled: you have a significant amount of harness training and experience, including developing your own choreography and moves. You have a solid physical preparation, conditioning techniques and strength training and are able to combine a range of technical movement (such as rotations, cartwheels) into extended sequences, both with and without pendulum, with confidence. You have your own equipment (harness, descender, carabiners, lift ascender), knowledge about ropes and are able to inspect your own material in use.

Improver: you have significant single point harness experience (at least two years of regular practice) on the wall on different lengths of rope. You are confident with using ascending and descending devices and knowledgeable about personal safety systems. You should be familiar with, confident and competent in demonstrating the following list of spatial and physical propositions: Planks on different planes. Finding your balance point/grounding under the rigging point. Jumping away and returning to the wall with control. You have a basic understanding of rotations, (simple forward and back somersaults) and cartwheels on the wall.

Explorer: you have little or no previous experience of vertical dance - dancing in a harness. You may have started to attend vertical dance classes but are still at an early stage in your training. Even though you may be a skilled or professional artist in dance, gymnastics or other aerial skills, it is important that you join the explorer class to gain an understanding of the fundamentals and safe use of equipment before you can move to an improver class. *Vertical Dance Level adopted by: Vertical Dance Centre Il Posto Italy European Aerial Dance Festival, Brighton UK Irish Aerial Dance Creation Centre Limerick Ireland Irish Aerial Dance Festival Donegal Ireland
